What is SmartCash?

Revolutionary Blockchain Technology
SmartCash is a decentralized global currency that enables fast and secure peer-to-peer payments.

Advantages of SmartCash:

No Third Party Involvement
SmartCash's unique peer-to-peer technology is transforming the way everyday people do business.

No Fees
No third party involved. No fees. Receive payments instantly with immediate access to your funds, and and no risk of charge-back fraud.

InstantPay Transactions
Transactions approved and irreversible within a few seconds.

Safe & Secure
Your Private Key ensures that you are the only person who can access your funds.

Convenient & Easy to Use
The customer can use their mobile device or their SmartCard they've printed out. They don't need an internet connection. Only the business does.

No Cost to Start Accepting
If you've been accepting credit cards, most likely you already have all the hardware you'll need to start accepting SmartCash.

Easy to Use & Free to Get Set Up.

1 Get a SmartCash Wallet
Visit **smartcash.cc** and find a wallet that best suites your needs.

2 Register Your Business Location
Visit **business.smartcash.cc** to create an account and register your business location so SmartCash customers can find you.

3 Download the SmartPay App
Download and Install the SmartPay app from the Android or Apple app store. Then link it to your account you just created.

4 Start Accepting SmartCash
Just enter the sale amount, scan the customers QR code, and the customers then enters their PIN.

5 Convert or Save & Earn
Convert your SmartCash into your local currency or hold and earn a passive income. Learn more at **smartcash.cc/smartrewards**.
